## Introduction

### Statement of the Problem

The problem consisted of compiling a list of Safety Educational Films obtainable from various dependable sources. All films available for public use by these same sources were to be listed and in addition each film title was to be complemented with a short description of the content of the film. In this manner not only would the person know the films that were at his disposal, but he also could tell within a definite degree of accuracy, if the film was suitable for his own intended purpose.

### Scope of the Study

The study included a survey of various organizations, private agencies and colleges that had Safety Education Films that could be rented or loaned free of charges. Also, the only films to be listed were those that could be utilized in the school situation from the Elementary through the High School grades.

### Justification in Selection of the Problem

"Teachers are learning the value of the newer media which give good eye and ear appeal. Film lets us see something better adapted to their periods and to pupil audiences."\* That the previous statement is obvious that the use of Audio-Visual aids in the schools of our country is well established. Again, it would likewise be apparent that in particular respect of education should be more important than that of Safety Education.

\*American Association of School Administrators  
1940 Publication-3.82

tion for the students of our schools. It is therefore, with these thoughts in mind that the author would say that the primary purpose of this paper is to provide a handy source of information on the many Safety Files that are available and also to provide data on where and how they may be obtained. Such information it is thought, could be of decided advantage to teachers and all others that have to do with Safety Education instruction in the schools.

#### Method Of Procedure Used In The Study

The first problem confronting the author was to determine what organizations, colleges etc. were to be surveyed in order to provide an adequate list of Safety Education Files. The solution of this problem was found in the Eighteenth Yearbook of the American Association of School Administrators.\* Herein, were contained the organizations, colleges and companies that the Educators of America considered were a good source of supply for Safety Files. While other sources of file references were available it was felt that an adequate cross-section of file supply could be obtained by surveying those organizations offered by our school Administrators.

The following list of organizations, companies, etc. were selected:-

Aetna Life Affiliated Companies,  
151 Farmington Ave., Hartford, Conn.  
Akin and Sweeney, Inc.,  
2227 E. Colfax Ave., Denver, Colo.

To each of the above sources of film supply was sent a personal letter, requesting a listing in annotated form if possible, of all the films that they had available for public use. In a few cases it was necessary to send a second letter before the desired information was obtained.

#### Classification Of Data

As the various catalogues, booklets, etc., were received it became apparent, after considerable study of the material offered that not all of these sources offered films, slides, etc. that could be used in the schools and as a result would be omitted as a further reference or source of film supply.

The following listing are those that offered films, slide film or lantern slides that could be used in the schools:-

Aetna Life Affiliated Companies	P.1
Akin and Logshaw	P.1
American Automobile Association	P.2
American Museum Of Natural History	P.6

A. B. Angis Company	P.7
Automobile Club of Southern California	P.7
United World Films Inc.	P.8
Employers Mutual Insurance Co.	P.9
Film Center	P.10
Films Of Commerce Co.	P.11
General Motors	P.11
The Institute of Makers Of Explosives	P.12
International Association of Chiefs of Police	P.12
Metropolitan Life Insurance Co.	P.13
Morgan's Co.	P.14
The National Board of Fire Underwriters	P.14
National Council Y.N.C.A.	P.15
National Fire Protection Association	P.16
National Safety Council	P.16
Pyrene Manufacturing Co.	P.28
Society For Visual Education Inc.	P.23
Tombing Film Enterprises Inc.	P.29
Travelers Insurance Company	P.30
Underwriters Laboratories Inc.	P.30
U. S. Bureau Of Mines	P.30
U. S. Dept. Of Agriculture	P.31
Buffalo Museum Of Science	P.31
Greater New York Safety Council	P.32
Massachusetts Safety Council	P.33
Eastern University School of Education	P.34

University of Colorado, Extension Division	P.35
Iowa State College	P.36
University of Michigan, Extension Service	P.37
University of New Hampshire	P.39
University of South Carolina, Extension Division	P.40
University of Tennessee, Division of Extension	P.41
State College of Washington, College Ext.	P.43

In addition to these sources of film supply, six more were added as a direct result of writing to other agencies. No letters were sent to labor organizations, but their material was received and proved to be useful in compiling the finished result.

These sources included:-

Encyclopaedia Institute of America, Inc. 122 East 42nd Street, N. Y. N. Y.	P.44
Bureau of Communications Research, Inc. 12 West 44th Street, N. Y. N. Y.	P.44
Dept. of Education, Commonwealth of Massachusetts 200 Newbury St., Boston, Mass.	P.45
Dept. of Public Health-State of Illinois 712 East Monroe St., Springfield, Ill.	P.46
Panorama Pictures 7936 Santa Monica Boulevard, Hollywood, Calif.	P.47
Western Actuarial Bureau 242 West Adams St., Chicago, Ill.	P.47

In listing the offerings of each organization both 16 and 35 millimeter sound and silent films were included as were all slide films or lantern slides.

In classifying all films offered, six general divisions were utilized throughout. They consisted of:-

- Fire Prevention
- Home and Farm Safety
- Highway and Bicycle Safety
- Recreational Safety
- Industrial Safety
- First Aid

After listing all pertinent films offered by each company and type of film a notation follows, indicating the general classes of these films, no information concerning the postage charges.

Following a listing of the films offered by each company the authors gathered together under the same six divisions the films offered by all the companies under each division and annotated them.

In annotating the films it was naturally impossible to personally view all the films and therefore the writer depended greatly on the review placed on each film by each organization. Most of the films are annotated by more than one company or by one college and by comparison of content summary, it is believed, that a fair analysis of each film was arrived at.

Again, while submitting the films the author desired to state the age or school grade level for which the film was best suited. Once again, by comparison of material at hand the author arrived at what he considered to be the general collective opinion of those organizations offering the films for sale or rental.

An alphabetical listing of all submitted films is offered in the latter part in order to facilitate looking up any desired film for content material.

The following symbols were used throughout:-

- pr-primer
- el-elementary
- jr-junior high school
- sr-senior high
- mm.-16 millimeter
- mm.-35 millimeter
- st-silent
- so-sound

History of the Fire

Fire Prevention

Fire on Fire 16m. 30. 30. (All Ages)

The fire is the subject of the local fire department, a typical family starts a home inspection and fire drill. From school to attic, potential fire hazards are pointed out and corrected, and the importance of following safe practices is stressed. In the fire drill, the family is shown how to report a fire promptly and how to safeguard themselves against death, burns, or suffocation.

No Fire to Lose 16m. 30. (All Ages)

A five-minute short which clearly explains the three ways to report a fire--by alarm box, by telephone and by messenger. The film shows the steps taken by the fire department after an alarm has been received, including scenes in the central alarm station, the local fire house and at the fire.

Fire Protection 16m. 31. (All Ages)

A sketch of the history of fire fighting in this country. Shows various types of fire-fighting equipment and tells how to operate it. The correct procedure in turning in an alarm is demonstrated, as is the method of extinguishing fires. Instruction in artificial respiration. Concludes with a school fire drill, showing correct method of leaving building.

Fire Safety 16m. 30. 31. 37m. 31. (All Ages)

Deals mostly with fire protection in the home. Shows proper treatment of burns as a direct result of fire.

### Fire Prevention (Cop't.)

Fire Prevention 16mm. 81. (All 1931)

File is in two parts. First half deals with fire prevention in building construction and second half is an outline for fire protection in the home.

How Forest Fires 35, 16mm. 81. (jr-sh)

Appears to have with film in the woods. Starting scenes of forest devastation; small talk of forest fires; how to prevent; wild life and soil.

How to Control Fire 16mm. 81. (jr-sh)

Effective series against fire blowing in houses with highly volatile materials. Elaborate precautions are shown in connection with building construction. Controlled fire is shown in connection with fire.

How to Control Fire 16mm. 81. (jr-sh)

Using a completely accurate method of showing the various losses which usually result without knowledge of proper fire control and loss of life from forest fire, this picture shows how forest and brush fires start, how they are prevented. Point is also made that fire cause floods by destroying the watershed, and flood scenes illustrate this important part of the picture.

How to Control Fire 16mm. 81. Color or Black and White (jr-sh)

Explains types and uses of extinguishers, how to handle special types of fires. Emphasizes danger of carelessness and need for speed in fire fighting. It provides exact knowledge of what to do in the event of fire, large or small.

### Fire Prevention (Cont.)

Preventing Fires Through Electrical Safety 16mm. So. (jl-sh)  
Illustrates the correct way to use fire extinguishers and the importance of using this equipment during the first few minutes of the fire.

### The Fire Thief 16mm. So. Film Strip (sh)

Illustrates how fires can destroy the things you love, and other valuable assets. Illustrates also the source of fires and the need of good housekeeping.

### Before The Alarm 16mm., 35mm. So. (jl-sh)

Fundamental fire prevention and protection needs of an average American community. The Fire Chief and a National Board of Fire Underwriter's interest in problems of fire prevention as they put apparatus and personnel through fire tests and drills.

### Sixty Seconds To Safety 16mm. So. (All Ages)

Illustrates some of the common causes of fires in schools, such as waste paper carelessly left on steps; and covers things like furniture blocking exit doors, and many others often overlooked.

### Trees For Tomorrow 16mm. So. (All Ages)

Fire prevention is the primary step toward maintaining an adequate timber supply. This film shows the up-to-date techniques of forest conservation, including covert method of forest fire spotting in aerial. The photography is outstanding and the picture is entertaining as well as informative. It will

### Fire Prevention (Cont.)

#### Traps For Thieves (Cont.)

Hold the interest of my students composed of either adults or juveniles.

#### The Chemistry of Fire 16m. 51. (jr-5)

Demonstrates how the elements fire, oxygen, and ignition temperature must be present in order to cause fire; differentiates between fire, smoke and burning; and gives ten ways in which a fire can be extinguished.

#### Electrical Safety 16m. 51. (ALL 1 es)

Designed to instruct the public in safe handling of electrical wires and appliances in the home. Shows how accidents are avoided and fires started.

#### Fire Facts 16m. 51. Color (jr-20)

A vivid training picture on fire and fire-fighting which shows that type of fire extinguisher should be used to combat the three different basic kinds of fires.

#### It Might Have Been You 16, 30m. 51. (jr-10)

Shows statistics which show that in 7 out of 10 fires there are 11,000 cases of injury and 2 cases of death and destroyed property. People overlook--all due to the carelessness of a single act. Illustrates that the Forest Service is doing to prevent such catastrophes.

#### Prevent Forest Fires 15, 16m. 51. Film Strip (jr-11)

Feasibility of forest fires is discussed in relation to where using fire while in the woods.

### Fire Prevention (Cont.)

Slide 15, 16m. Sl. (Cont.)

A forced service picture roll gives a practical lesson in forest fire prevention. It shows how the foreman must be prepared to handle any emergency, and shows a small fire. The man and boy extinguish the fire, then demonstrate to the audience the correct procedure for starting and putting out fires.

Slide--Do Not Run, 16m. Sl. (All Ages)

Deals with the correct behavior of school fire drills and traffic regulations during fire drills. In a typical drill, a teacher is shown leading the way to a safe place where the teacher takes attendance to make sure no one is missing. The youngsters are shown all the exits and the correct way of using the fire escape. A good picture of handling fire drills in school.

In Case Of Fire Slide Film, Sl. Film Strip (All Ages)

What to do in case of fire and how to prevent it.

The ABC Of Fire 16m. Sl. Color (Sl)

Explains combustion, heat oxidation, heat explosion; how flames are formed; how flames spread and how they are controlled in the laboratory, and how the amount of flammable vapor in the air determines whether mixtures will explode.

The Use Of Fire Extinguishers Sl. Film Strip (Gr-8)

Shows how different types of fires are handled and demonstrates the proper use of several types of extinguishers: water, soda, acid, vaporizing fluid, dryide compound, foam, and carbon dioxide in liquid form.

### Fire Prevention (Cont.)

#### Crimes of Carelessness 16 M. So. (All Areas)

Film depicts in dramatic fashion the appalling loss of life and property which results from preventable fires. The principal unsafe practices which cause fires are dramatically illustrated--then the safe ways of doing the same things are shown.

#### Fire Si. Film Strip (jh-sh)

Explains the three requirements for fire--heat, combustible material, and oxygen. Gives five frequent causes for fire and three ways of extinguishing a fire; smothering, cooling, and separation of flame from the burning materials.

#### Control Of Flammable Liquids 16mm. So. (jh-sh)

Stressing the "safety factors" found in the flame arrestors and storage cans manufactured by the sponsor of this film. Methods of handling volatile and flammable liquids are portrayed.

#### Oil Fires, Prevention And Extinguishment 16mm. So. (jh-sh)

This film was made by the Standard Oil Company of California for the purpose of instructing its employees in the fundamentals of fire protection. It contains no advertising, and is suitable for any educational program in fire protection.

#### Fire Prevention And Other Precautions In Welding And Cutting Si. Film Strip (sh)

A suggestive, step-by-step account of accepted fire prevention and other safe practices in oxy-acetylene welding and cutting. Student lesson books.

Fire Prevention (Cont.)

Siren 16mm., 75mm. So. (jh-sh)

Forest fires--their causes and the destruction resulting from them.

The Red Pioneer 16mm. So. (jh-sh)

Demonstrates proper forest fire fighting methods and use of modern equipment in actual fire scenes. Strong in appeal for fire prevention in the forests.

General 16mm. Si. (jh-sh)

A Forest Service film showing the importance of forest fire protection in general conservation programs. Will be of interest chiefly to schools on the Pacific coast, but measure of import to all localities.

Ten Thousand Fires 16mm. S. (jh-sh)

Emphasizes damage done by forest fires. Shows need for preventive measures to eliminate losses.

Forest Fires Or Game 16mm. So. Si. (jh-sh)

An appeal for care in preventing forest fires for the protection of wild life. Demonstrates proper method of extinguishing camp fires, handling matches, etc.

Firemen Of The Forest 16mm. So. (jh-sh)

Demonstrates the causes of forest fires and the methods of prevention employed in Wisconsin.

One Link Method Of Fire Fighting 16mm. So. (jh-sh)

Method described in detail with demonstrations in extinguishing fire.

### Fire Prevention (Con't.)

Approved By The Underwriters 16mm., 35mm. So. (sh)

Technical in subject matter. Shows tests of all sorts of devices conducted by Underwriters Laboratories to eliminate the hazards of fire, accident, and crime.

A Word To The Wise 16mm. So. (All Ages)

Film on home fire prevention, presented in story form. Illustrates common fire hazards in the home and how they can be eliminated.

Bad Master 16mm. So. (All Ages)

How fires are started in the home; shows results of thoughtlessness by members of the family.

Safeguard America Against Fire 16mm., 35mm. So. (All Ages)

A colorful dramatization of the importance of preventing the huge annual loss created by fires. Covers methods of preventing and fighting many different types of fires and shows progress made in eliminating fire hazard.

Forest Of Farm Disasters 16mm., 35mm. So. (jh-sh)

A poster-like warning of the havoc caused by fire on the farm with summary of how electricity properly used can help prevent farm fires.

Farm Fire So. Film Strip (jh-sh)

A presentation of the importance of eliminating farm fire hazards. Some of the points brought out are the danger of matches used for keeping oily rags or waste in closed metal waste cans outside house.

### Fire Prevention (Con't.)

#### Dangerous Dusts 16mm., 35mm. (sh)

Scenes of fires resulting from some of the most damaging dust explosions on record are shown. Pictures the cause, effects, and best methods of preventing dust explosion.

#### American Lumber 16mm., 35mm. So. (jh-sh)

This is a story of forest fires that burn an area greater than New York State each year. Forest fires and brush and grass fires drain one million man-days of labor from factories and farms annually. This picture illustrates ways of preventing these fires from starting.

#### Forest Fire Fighting In The South 16mm., So. Color (js-sh)

An elementary training film demonstrating types and proper use of fire tools; and proper tactics for fighting forest fires in the South.

#### Chemistry Of Combustion 16mm. So. (jh-sh)

Film on the various elements involved in combustion and necessity of handling these elements with care.

#### Fire Prevention And Fire Fighting Lantern Slides (el-jh)

A series of lantern slides used to show the various methods of preventing fires and fighting the same.

#### U.S. Fire Fighters 35mm. So. (jh-sh)

Deals with the nation's fire problem and method of prevention of fires.

### Home And Farm Safety

There's No Place Like Home 16mm. So. Kodachrome (All Ages)

The film shows many of the more common causes of home accidents and explains in detail the steps which may be taken to guard against them. The action takes the audience into every room of a typical home and describes the specific hazards to be found in each.

Safety At Home 16mm. Si. (pr)

Illustrated safe practices for children in the home: care of playthings, hazards of climbing on unstable furniture, fire and handling matches, etc. Children are shown performing unsafe actions and are corrected then by others.

Safety In The Home 16mm. So. Slide Film (All Ages)

Shows the many precautions taken by a typical safety-conscious family in guarding its home against needless accidents. An interesting film for any type of audience.

Sentinals Of Safety 16mm. So. (All Ages)

Illustrates the various hazards in the home and describes methods of preventing home accidents.

Safe All Around 35mm. So. Slide Film Si. Film Strip (jH-sh)

Illustrates home safety measures and accident hazards as explained by a plant safety committee.

Double Trouble 35mm. So. Film Strip (jH-sh)

Features Lulu Drip and Hank Fizzle in on-and-off-the-job safety including safety in the home.

### Home And Farm Safety (Con't.)

#### Safety Begins At Home 16mm. So. (All Ages)

This film dramatizes and depicts home safety principles. It shows the various hazards in the home and how they can be recognized and avoided.

#### Man-Handled 8m. Slide Film (All Ages)

Points out that every man, woman, and child handles material daily and that many accidents are caused by unsafe handling. Shows first the wrong and then the right method of handling materials in various situations.

#### Home And Play 16mm. Si. (pr)

Designed for primary grades and illustrates the hazards of some common daily habits. Shows things children should not do.

#### Safe Use Of Tools 16mm. So. (el)

How to use such simple tools as scissors, knives, hammers, saws, files, clamps, and other small implements, shown in the school and in the home...the playground and in the backyard.

#### Prevention Of Burns 16mm. Si. (pr-el)

Scenes of small children being painfully burned and scolded; how these accidents might have been prevented.

#### Home Safety Slide Film Strip (All Ages)

Shows common hazards and bad practices in various rooms and how to correct them.

#### Home Safe Home 16mm. 35mm. So. (All Ages)

Vividly depicting a busy day in the life of a typical American family, this film illustrates the many little things that cause

Home And Farm Safety (Con't.)

Home Safe Home (Con't.)

Home accidents, which each year result in 30,000 deaths and 4½ million injuries throughout the U.S.

Homemade Trouble So. Slide Film (All Ages)

Presents the vital subject of home safety with new interest. Shows several typical home accidents, explaining their causes, and points out how such accidents may be avoided.

Four Point Safety Home 16mm., 35mm. So. (el-jh-sh)

Shows the direct bearing of off-the-job accidents to efficiency on-the-job. Describes the four points of a safe home; maintenance, good housekeeping, protection of children, cultivation of safe habits.

Plan For Safety Si. Film Strip (el-jh-sh)

Home safety film, placing emphasis on how to avoid accidents among younger children. Most common causes of accidents, suffocation, heat, burns, shock, cuts, and poisons are listed and suggestions for their prevention are given.

What Price Happiness 16mm. So. (All Ages)

Shows common causes of home accidents and suggest measures for eliminating them. Effectively supplements home safety talk when visual presentation is desired.

Road To Safety 16mm. Si. (jh-sh)

Safety in the home and also safety on the highway is considered in this film.

### Home And Farm Safety (Con't.)

#### It's Your Home--Plan It Safely So. Slide Film (sh)

Illustrates home safety ideas designed and approved by a committee of America's foremost architects and builders which will be of special interest and value to those planning to build. Also includes many ideas that can be incorporated in existing homes to help prevent accidents.

#### Why Not Live 16mm. So. Sl. (jh-sh)

Covers home, highway and farm safety and the work of the American Red Cross in its nation-wide accident prevention campaign.

#### My Model Farm 16mm., 35mm. So. (jb-sh)

The title signifies idealism, but the picture shows the lack-lustful farmer who is proud to show his farm. While he takes us around, he lives continually for not having things just the way he wants them. The plot is full of comedy, yet lesson points are driven home in an entertaining manner.

#### Farm Inconveniences 16mm., 35mm. So. (jb-sh)

This picture was made to show "the fool things we do needlessly" around our farms and homes--things that are inconvenient, sometimes hazardous and yet unnecessary. Incidents with which all of us are familiar are shown in very comical instances; then comparisons are made to show better, safer, and more pleasant methods. Every sequence emphasizes a point worth remembering.

#### A Stitch In Time 16mm. So. (jh-sh)

Produced in cooperation with Kansas State College and the Kansas State Safety Council in appreciation of their pioneering

## Home And Farm Safety (Con't.)

### A Stride In Time (Con't.)

efforts to make the American Farm a safer place to work and live.

### Do You Know? Sl. Film Strip (jlt-sl)

Covers many phases of farm safety. Designed for three-way use--(1) as a regular filmstrip, (2) as a discussion guide, or (3) as a safety quiz.

### Farm Safety Service So. Slide Film (jlt-sl)

First four films are designed for showing to inexperienced farm workers, and the fifth two stories to promote the employ-ment of experienced workers.

### Seven Million Hands So. Slide Film (jlt-sl)

This film presents the facts behind the need for new farm workers. Its purpose is to encourage youth and able to volunteer their services for farm work, and to break the ice relative to common possibilities that await them if their services are accepted.

### Strictly Personal So. Slide Film (jlt-sl)

What clothes are best suited to farm work? What precautions should be followed around the farm home, and around the barnyard to avoid accidents? These questions, and many others, are answered by this film. It explains the use of many small hand tools that are a part of the daily life on the average American farm.

Home And Farm Safety (Cont.)

Home Helpers So. Slide Film (jb-sh)

Machines are taken as much for granted on the modern farm as they are in the modern factory. Whenever there are machines, potential accidents exist. This film shows practical methods of accident prevention, including total production of food by all who need the...

Let's Be Friendly So. Slide Film (jb-sh)

This film offers suggestions for safe treatment of your farm animals as horses, cattle, dogs and man's best friend, the dog. Illustrated with old and young.

Grease Guard So. Slide Film (jb-sh)

Shows how and how to use his new safety in a kitchen. Summary of time, and with great effectiveness.

Little Things Count 16mm., 35 mm. So. (jb-sh)

Shows the importance of being careful about the little things that cause falls--most numerous of all home accidents. Covers most common slipping and tripping hazards, such as throw rugs, trailing lamp cords, toys and books underfoot, and poorly lighted or cluttered stairways.

Model For Safety 16mm., 35mm. So. (sh)

Illustrates model kitchens to arouse interest, then stresses the fact that more accidents happen here than in any other room in the house.

Home and Farm Safety (Con't.)

Accidents In The House Lantern Slides (el-jh)

A series of slides depicting the more common accidents in the home and their means of prevention.

Kitchen And Dining Room Safety 16mm. So. (jh-sh)

How to avoid all hazards and promote cleanliness in kitchen, dining room, etc. While directed at commercial eating places, the message is of use in the home.

Stop Carelessness and Prevent Farm Accidents Glass Slides  
(jh-sh)

57 plain slides pertaining to the many phases of farm safety.

### Highway and Bicycle Safety

Chance To Lose 16mm. So. Si. (sh)

Illustrates the chances taken by many drivers as compared with the chances taken in various forms of gambling. Received award as best safety film for 1937. Has scenes showing the construction of modern motor cars.

Once Upon A Time 16mm., 35mm. So. Color (sh)

Animated cartoon picture, with fairy tale setting, showing what happens when Carelessness and Discourtesy motivate motorists.

We Drivers 16mm., 35mm. So. Si. (st)

Features the cartoon characters, "Sensible Sam", and "Reckless Rudolph" and their contrasting directions and advice to a driver. Good scenes of various safe driving practices.

Street Safety--For Primary Grades 16mm. Si. (pr)

Designed especially to impress younger children. Shows correct pedestrian habits for children; where to cross the street, how to obey traffic lights and signs, where to play. Some of the scenes show a trained police dog illustrating the safety habits to children.

Street Safety--For Advanced Grades 16mm. Si. (jh-sh)

Illustrates fundamental safety principles designed to govern outdoor activities and adults. Shows the right way to cross street, alight from streetcars, right places to play, how to walk along roads where there are no sidewalks.

### Highway And Bicycle Safety (Con't.)

Horse Sense In Horse Power 16mm. Si. So. (sh)

Illustrates the development of the automobile industry with scenes from the early days of motoring and action shots in testing modern motor cars. Appeals to the motorist to reexamine his responsibility on the road.

Bicycling With Complete Safety 16mm. So. Si. (el-jj-sh)

A boy on a bike is involved in an accident. The way in which he could have avoided the mishap is illustrated. Police are shown inspecting bicycles, demonstrating correct ways to ride and cautioning law-breakers.

On The Road 16mm., 35mm. So. (el-jj-sh)

Opens with rules for safe cycling, each of which is illustrated to a violator in a school traffic court. Safety advice is given by a speaker at a passengers' meeting, the owner of a bicycle rent stand, and a traffic-policeman.

Safety To And From School 16mm. So. (pr)

How, when and where to cross a street in safety is made clear in simple dialogue and illustrated in detail so that every child will understand it. Artfully combined action photography and animation.

Speaking Of Safety 16mm. So. Si. (pr-el)

Safety lessons taught through use of cartooned faces superimposed on automobiles. Picture shows children crossing in middle of street, hitchhiking rides, riding bicycles recklessly, playing in the streets, etc., and then how the automobiles

## Highway And Bicycle Safety (Con't.)

### Speaker Of Safety (Con't.)

Speak to them and correct their errors.

### Remember Jimmy 16mm. So. (sk)

A family is forced into an accident by a careless driver. The injured are taken to a hospital, and the driver realizes the tragic consequences of speeding. This picture makes its appeal through sympathy and the emotions.

### Singing Wheels 16mm. So. (sk)

Dedicated to the trick drivers of America, this film shows the importance of a complete physical examination and the testing of drivers in the rules of the road.

### Trouble Shooting Your Car 16mm. So. (sk)

Shows what a driver should do to locate and correct minor car troubles; how to follow an orderly and step by step procedure in checking why a car won't start; and how to recognize symptoms of impending trouble.

### One, Two, Three, Go 16mm. So. (pr)

An M-G-M "Our Gang" comedy. The "Gang" Safety Society lays down the following rules for crossing the street: (1) look to the left; (2) look to the right; (3) look behind for turning vehicles. If all is clear, then Go!

### The Other Fellow 16mm., 35mm. So. Slide Film (sk)

Suggestions are presented reducing traffic accidents by means of a 15 point safety program. Shows what Evanston, Illinois, has done to gain its reputation as a safe city.

### Highway and Bicycle Safety (Can't.)

#### Drunk Driving 16mm., 35mm. So. (sh)

An excellent film on the danger of driving while under the influence of alcohol. The film dramatizes a situation in which one man is responsible for the deaths of three innocent people as a result of having taken a few drinks before taking family out to dinner.

#### Know Your Car 16mm. So. (sh)

Shows construction of a car chassis; how the engine converts gasoline into power; the function of the clutch, transmission, and rear axle; how brakes stop the car; how the electrical and cooling systems function; and what the gauges on the instrument panel indicate.

#### Safety Patrol 35mm., 16mm. So. (el-jh)

Tells a story of lives saved by young boys who keep children safe on their way to and from school.

#### Points For Peddlers 16mm. So. (el-jh-sh)

This film tells many interesting things about bicycling including fundamentals of riding, observance of traffic rules, care of bicycles, safety equipment, etc.

#### Teach Them To Drive 16mm. So. (sh)

Carries the urgent message to teach our young people to drive to stay alive. Shows driver training methods now in use in high schools, and the daily dividend in safety that such training can achieve.

### Highway And Bicycle Safety (Con't.)

#### Your Driving Habits 16mm. So. (sh)

Shows the elements of good driving: how to start the engine; how to use the clutch and to shift gears; how to use brakes; how to drive on curves, pavements, and in mountainous country; how to drive through ice, snow, water, and mud; and how to park a car.

#### Between The Lines 16mm. Si. (pr-el)

Children in an elementary school demonstrate to their teacher the necessity for sets of lines marking crosswalks at intersections.

#### Pedal Pushers 16mm. Si. (el-jr-sh)

A film within a film. Civics class produces a color movie on "Safe Cycling"--an excerpt of the bicycle safety rules which the class has found most important.

#### Everybody's Business 16mm. So. (sh)

Illustrates interesting test in which one car travels the length of a city obeying all traffic regulations. The other car travels the same route, speeding, beating traffic signals, etc. Stresses auto condition and responsibility of drivers.

#### Men At The Wheel 16mm., 35mm. So. (sh)

A "March of Time" film, singling out for special condemnation the driver who is always taking a chance. Leaders in the field of safety stress the idea that united action is necessary to reduce accidents through education, enforcement, and engineering.

### Highway And Bicycle Safety (Cont.)

#### Saving Seconds 16mm. So. (sh)

Illustrates the right and wrong driving habits on the highway while attempting to save time.

#### Safety On The Highway 16mm. So. (sh)

Brief review of background for and follow-up on the writing and results of "And Sudden Death" by J.C. Foyras for Reader's Digest.

#### Learn To Live 16mm. So. (sh-jh)

Correct procedures for pedestrians and motor vehicle operators. How to avoid skidding. How to cross the street. How to pass a car, park, etc..

#### Defensive Driving 35mm. So. Slide Film (sh)

An entertaining and instructional program for both pleasure car and truck drivers. Two newspaper reporters are given the assignment of finding out why truck drivers are able to drive such big, clumsy vehicles with so few mishaps. Interviews with drivers of various types of trucks and demonstrations of "defensive driving" tactics.

#### Traffic Of Monaco 35mm. So. Slide Film (sh)

Gasoline scenes at Monte Carlo are compared with the stunts which automobile drivers take. Near accidents and correct driving practices in connection with the operation of Coca Cola truck are shown. While this file was prepared for the instruction of Coca Cola truck drivers, it can be used to advantage in any driver training classes.

## Highway And Bicycle Safety (Cont'd.)

### Street And Highway Safety Lantern Slides (el-jh)

A series of lantern slides on safety while walking and driving.

### Fast Price Movements Lantern Slides (el-jh-sh)

The terrible toll taken by accidents due to careless drivers.

### Live And Let Live Lantern Slides 16mm. 81. (el-jh-sh)

This film shows the results of careless and reckless driving and the great number of lives lost each year in automobile accidents.

### Safety First Lantern Slides 81. Film Strip (All Areas)

Deals with traffic situations, particularly hazards caused by careless pedestrians. Shows results of disobedience, playing in the street, failure to obey traffic signals, riding two on a bicycle, and hitchhiking. A group of boys and girls are shown obeying school bus patrol and policemen, and using pedestrian tunnel.

### Pictures And Songs For Primary Grades Lantern Slides (pr)

A group of lantern slides intended to instruct the younger children in the adoption of safety attitudes.

### You Bet Your Life 80. Slide Film (sh)

A half-hour sound slide-film program. By making a "look" of the driver who neglects to use caution, and exaggerating his offenses, the picture strives to shame all drivers into better and safer attitudes.

Highway And Bicycle Safety (Con't.)

Hit And Run Driver 16mm., 35mm. So. (sh)

This excerpt of an MGM film deals with the hit and run driver. A young motorist tries to evade responsibility for running down and seriously injuring the pedestrians on a highway.

Too Joint The Safety Patrol Slide Film (cl-jh)

Slide films showing the training and instruction received by members of the school patrol, and their part in the safety program.

Safety On Two Wheels Sl. Slide Film (cl-jh-sl)

A series of slides intended to instruct children in the proper handling of their bicycles, in order to prevent accidents.

Seventh Deadly Sin Sl. Slide Film (jh-sl)

An LHM Pete Smith short released in 1947., which points to carelessness as the cause of many unnecessary accidents in the home as well as on the streets and highways. Although very humorous, it nevertheless gets across the idea that one should never ignore the ever-present menace of accidents.

For You And Yours So. Slide Film (sh)

A film dedicated to the ideal that all America may live in freedom from the tragedy of accidents. Presents an urgent appeal for everyone--everywhere--to join in a united effort to stop the needless waste of humanlife and the untold suffering which accidents cause each year.

### Highway And Bicycle Safety (Cont.)

#### Safety In Numbers 30. Slide Film (sh)

Presents a plan for community safety and the part civic groups can play in solving local traffic problems.

#### Your Town A Safe Town 16mm. 30. Color (All Ages)

This film shows the part of the Safety Council plays in organizing bicycle clubs. Stresses pedestrian safety--particularly for those who ride buses. Also covers work of the police department in the interest of traffic safety.

#### No Skids, No Slides, No Terrors 16mm., 35mm. 30. (sh)

Emphasizes the hazards of winter driving on snow-covered and icy pavements.

#### Play It Safe 16mm., 35mm. 30. (el-jh)

This is the story of a boy who runs out in the street between parked cars to capture his baseball. There is a striking of brakes, a fade-out, and an ambulance is shown entering the hospital grounds. A flashback shows the boy looking both ways before stepping into the street, and shows the driver on the alert proceeding slowly. The film is dramatic, constructive safety education.

#### Watch Your Step 16mm., 35mm. 30. (el-jh-sh)

Illustrates the four safety rules: (1) use the crosswalk; (2) wait on the curb; (3) cross with the green light; and (4) Drivers--observe pedestrian's rights at signal intersections. After these four rules have been illustrated, they appear on the screen, one by one, and are recited the narrator.

Highway and Airplane Safety (Cont.)

Stepping Faulty 16mm., 15mm. 80. (44)

An attractive pair of feminine legs demonstrates the importance of crossing streets in the proper walk, not in a shamble.

Look, Listen, Live 16mm., 15mm. 80. (All Ages)

Covers rural railroad grade crossing. Accidents and stresses importance of observing warning signals.

Give And Gain 16mm., 15mm. 80. (87)

Stresses the fact that it is not only for a driver approaching an intersection to insist upon the right of way over a vehicle approaching from the left.

Safe From Home To School 16mm. 81. (color pr-cl)

Safety lessons for children are presented in a pleasant, instructive manner. Covers proper conduct when walking to and from school.

How To Cross A Street 16mm. 81. (All Ages)

Student-produced film-Miller's design project in 1941-42 which clearly shows safe practices for pedestrian.

Safety In A Moving Pic 81. Film strip (cl)

Shows principal causes of traffic accidents and their prevention.

How Pedestals Operate 16mm. 80. Color (cl-jl)

Designed to train how school patrols, correct and instruct existing patrols. Shows patrol members on duty at various types of intersections.

## Highway and Bicycle Safety (Cont'd.)

### Patrol Protection 16mm. Si. (el-jj)

Two boys who drive and deliver "news" to school patrol men, looking after school who the patrol boy is struck by a car while warning his friends of danger. The certified boy recruits and becomes a member of the patrol.

### School Safety Patrols 16mm. Si. (el-jk)

A detailed pictorial explanation of school patrols and their work. Film of 15 Wisconsin.

### Wisconsin School Patrols 16mm. Si. (el-jl)

Detailed operation of school safety patrols.

### On Guard For Safety 16mm. So. Color (el-jm)

Traces the growth of the safety patrol movement, with emphasis on the part played by the AAA. While crossing a typical street intersection, walking on a rural highway, and boarding and leaving a school bus, youngsters are reminded by patrol boys to be careful. Procedures for setting up patrols, securing service certificates, and training new recruits are shown.

### Safety On The Streets 16mm. Si. (el-jn)

Shows school boy patrols in action.

### Handlebar Hazards 16mm. Si. Color (el-jh-ah)

Shows what Appleton, Wis., is doing in training school pupils in the correct use of bicycles. Bicycle registration and inspection by the police are shown. Various causes of bicycle accidents are illustrated.

Bicycle and Bicycle Safety (Don't)

The Bike Parade 16mm. Sn. (61-31-21)

Harvested by Ted Haring, this film traces the growing interest in bicycles, the changes that have occurred in bicycle styles, and the new rules that have been made of bicycles during the past 50 years. Excellent photography.

Spinning Spokes 16mm. Co. 31. (61-31-22)

A high-school boy rides his bicycle carelessly and has it smashed in an accident. His father refuses to let him have another until he learns to ride safely. He shows a healthy respect for the rules to take a safe interest in individual recreation.

Bill's Bike 16mm. Si. Color (61-31-23)

While riding on his way to an accident that destroys Bill's bike. He laboriously earns enough money to buy another, and he is convinced that safe riding is more economical and more convenient.

The Safety Sleuth 16mm. Si. Color (61-31-24)

One child plays detective, springing on another as he rides his bicycle and leading him to numerous safety violations. The film arouses interest by stimulating discussion and raising a question, rather than giving instruction.

Put Your Feet To Pleasant Places 16mm. Si. (61-31-25)

Deals with bicycle safety and a voluntary inspection plan.

• Jack Fieles A Day 16mm. Si. (61-31-26)

Jack rides his bicycle with disregard for traffic rules.

Firearm and Bicycle Safety (Cont'd.)

Jack Finds A Toy (Cont'd.)

A crash course into the law and provides time for reflection. Then, while Jack leads a group of high school students to the mayor to ask for a safety campaign to make all bicycles safe and inspected.

Stop, Look, and Live 35mm. So. Slide Film (All Ages)

Deals with pedestrian safety. An interplay with a mother and a city policeman two times as shown and metropolitan walking hazards.

Are Your Feet Killing You? 75mm. So. Slide Film (All Ages)

A dramatic portrait of America's crossing pedestrian problem. Shows many cases of accidents to illustrate and in some cases the reasons for the accidents and the correct procedures.

Millions Hurt--Billions Hurt 16mm. So. Sl. (All Ages)

Deals with pedestrian safety. Safe and unsafe driving practices are also shown.

Foot Facts 16mm. So. (All Ages)

During 1942 far more accidents were killed and injured on the road than in the country last year. Many of these were preventable accidents and this film shows how to prevent such.

Be Safe 16mm. Sl. So. (All Ages)

A picture showing Wisconsin pedestrians in action. Conditions in many cities of the state are shown.

Highway Law: Multiple Safety (Col'8)

The Chance Of A Lifetime 31. Film Strip (31-98)

Demonstrates how to cross streets safely, observing traffic lights, etc.. Cases in which drinking affects driving are also shown.

Adventures Of The Balkans 16mm. 30. (all Ages)

Shows two families--one doing things right, one wrong--mainly as pedestrians. Depicts the entire day of each.

Learning To Drive 30. Slide Film (30)

Prepared primarily for high school students in driver-training course. Part 1 deals with a description of the parts of the car and the physical reactions of the driver. In Part 2, a beginner is shown behind the wheel learning about the controls, etc..

Safe And Sound Driver's Course 16mm. 31. (30)

Produced by Lane Technical High School of Chicago, this film shows how students are trained to handle cars on streets and highways and how they are taught the meaning of traffic signs.

Youth Takes To The Highway 16mm. 31. Color (30)

An excellent film portraying how the State of Delaware is training its high school pupils to drive safely.

Tombrow's Drivers 16mm. 30. (30)

Designed to help driver-education for high school age boys and girls. Shows the benefits obtained by the pupils from such a course and the good drivers it makes.

### Alimony and Bicycle Safety (Cont.)

Alimony Too Short 16mm. 31. (411-4-44)

Illustrates the hazards rural school students meet in being transported in school buses and the manner in which the school solved these problems.

Feeding, Riting, and Rik-eting 16mm. 31. (507-67-3)

This film deals with safety while riding buses and streetcars. Correct methods of boarding and leaving streetcars and of crossing streets are shown.

Big Steps To Safety 35. Slide Film (1944)

Memorable words should be to school for safety. Recommended for students of junior high level and above. Developed by Lowell Thomas.

Keep Your Downie 16mm. 31. (411-4-44)

A student-produced film dealing with school bus safety for pupils.

How to A. G. G. G. G. 16mm. 31. (411-4-44)

Circleless children are shown how to A. G. G. G. G. and are shown taking various parts of accident. There is a particularly good scene showing children against bicycling.

Lesson On The Street 16mm. 31. (411-4-44)

Emphasizes the incorrect habits of children, which lead to accidents on the street: jaywalking, playing on streets, riding on back of car, crossing street without proper care, riding too fast on bicycle, and bicycling.

Glenn and Harold Selzer (Don't)

Dangerous Trails 80. Slide Film (ps-cl-jk)

This film was prepared primarily for showing in rural schools. The dangers faced by brave frontiers and Indians of long ago are compared with the dangers boys and girls face on the streets and highways today.

Don You Know 16mm. 80. (sh)

A short test of thinking is required in order to enable you to fly a plane safely. This is true of the automobile, too, though to a lesser degree. Everyone should know his own car before trying to solve it.

The Periodic Checkup 16mm. 80. (sh)

Shows the necessary steps in the periodic checkup of a car, including tuning up the engine, servicing the brake system, inspecting the steering system, etc..

Don You Want a Driver's License 80. Slide Film (sh)

Emphasizes the steps taken by an applicant in getting a driver's permit in New York State, and also gives a review of some driver's prohibitions.

Right Driving 80. Slide Film (sh)

The important part of this film lies in the emphasis on three rules for right driving: (1) inspect and adjust headlights regularly; (2) Use setting beam of headlights when meeting other cars on the road; (3) do not hog-tie your own headlights

10

History and Picture Slides (Cont.)

How Big Is Lane 55. Slide Film (ss)

Deals with the driving of a car at random and the safe practices that are necessary.

Is It Worth While? 16mm. 55. (ss)

Depicts traffic violations made by negligent drivers, and shows how the police and highway patrol are working to bring about the apprehension of such offenders.

Besting The Insurance Industry 50. Slide Film (ss)

Received first award of American Automobile Association, better known Traffic Safety Committee, as the most effective sound-slide film on traffic safety during 1958. An amusing story of how the insurance industry has been able to avoid being fooled.

Trunk Talker 16mm. 55. (ss)

A lesson on the tactic: "If you drink, don't drive." Shows how a tragic accident ruins a young woman's career.

Smart Stops 16mm. 51. (ss)

On the principle that the more we know about the facts the better we will be, historic episode discussion of the perfected automobile brake.

Safe Stop, 16mm. 51. (ss)

Presents a series of episodes based upon traffic accidents that actually have occurred. Designed for one city for use as a part of the safety program in its secondary schools.

Picture and Slide Series (cont.)

Overlookings 16mm. So. (SB)

This film was made by taking pictures of accidents and then recreating scenes showing the cause.

On Record So. Slide Film (SB)

Shows how Drivers need report all accidents--even those involving minor damages--not only help to bring about safe streets and highways, but also assist in creating other improved driving conditions for their own protection.

Stop This Killer 16mm. So. (SB)

This film illustrates what the Georgia State Highway Patrol is doing to cut down accidents on the highway.

Highway Patrol 16mm. So. (SB)

Sponsored by the New Jersey Highway Commission. Interviews of traffic authorities by Lowell Thomas. Dangerous driving hazards are illustrated and correct methods given.

Survivors and Strangers 16mm. So. (SB)

The first half is a dramatization of "Survivors of 1940," in which Lee Lam, movie comedian, illustrates what happens to the average driver. In the second half Doc Wilson, radio announcer, plays the part of a survey journalist. Tells safety lesson with humor and insight.

Safe Road 16mm., 15mm. So. (SB)

Takes a trip from the railroads and over the sea, caution, attention to signals, and use of safety service while driving--can't let it, happier and content-free enjoyment.

Traffic and Bicycle Safety (Cont'd.)

Safe Javel from to Javel 16mm. Sp. Slide Film (11)

Designed to (1) acquaint the public with the many things a typical police department does to help protect traffic accidents, (2) illustrate how traffic courts function in the interest of public safety, and (3) present an appeal for strict compliance with traffic regulations.

Safe Javel from to Javel 16mm. Sp. Slide Film (12)

A dramatic presentation of the casualties resulting from traffic accidents. Presents suggestions for reducing accidents.

Just a Touch of 16mm. Sp. (13-14)

Illustrates the correct and improper motorist and pedestrian practices; also demonstrates the functioning of railroad traffic signals.

South Walla Walla Highway 75mm. Sp. 8mm Film (15-16)

Prepared for the instruction of Navy personnel as part of the regular training program at the Naval Training Station. A valuable introduction to safer pedestrian conduct.

Steps to Safety 16mm. Sp. (17)

Many of the traffic safety problems are here illustrated by means of a series of pictures in great many languages.

Is Time for Goodies 35. Slide Film (18-19)

Traffic safety film illustrating the daily hazards facing those who walk, ride bicycles, drive, or depend upon public transportation.

### Pleasant and Pivotal Safety (Don't.)

Forest Chances 16mm. 30. (30)

And James Thomas a lesson in safe driving in story form.

Forest Of Chances 16mm. 30. (30)

In an interview with Franklin Rice, a school teacher, he told that the all-star driver is not the all-star of the road and must observe the same rules.

Formations 16mm., 35mm. 30. (30)

Stripped quality is a series of interesting traffic accidents. Chances, "Visible Road Set Driver," points out dangerous driving tactics and how they should be corrected.

Safe Drivers Of 1944 16mm. 30. (30)

A leafy an advertisement to encourage drivers to join the "Safe The Road Club" sponsored by the Shell Oil Co..

It's Up To Us 16mm., 35mm. 30. (30)

Shows the various ways of driving and the various speeds, and then up through the road, through the air, through the water, speeding, jumping on the road, turning corners too fast.

First Rule 16mm. 30. (30)

An appeal for safety by Public Administration. Open with pictures of various accidents and the various ways of driving, speeding, jumping on the road, turning corners too fast. This is followed by a comment on the cause of safety, resulting from a series of accidents.

Alcohol And Bicycle Safety (Cont.)

The Tip-off 16mm., 35mm. So. (sh)

Encourages to watch the other fellow and anticipate what will happen next is illustrated in this picture. Shows some of the things to watch which provide tip-off for safe driving.

Inserts 35mm. So. Slide Film (sh)

Demonstrates the use of inserts as applied to safe driving. The importance of slowing on the curves and starting slowly is explained.

Circle Jim Tells You 16mm. So. (sh)

An interesting investigation of safe driving is being.

Second Commandment 16mm. So. (sh)

Emphasizes the fact that the safety of streets and highways depends in a large measure on the thoughtfulness and the consideration of each driver.

Turnabout Man 35mm., 16mm. So. (sh)

An amusing portrayal of poor manners on the highway. Shows why bad manners in driving are not only just as out-of-place as in society, but are much more dangerous.

Guilt 16mm. So. (sh)

Story of a young man who disregards the persistent warning of his mother-in-law about careful driving. Considerable specific traffic safety information included.

Yonder The Goat 16mm. So. (sh)

The traffic experience of a somewhat whimsical, although typical, driver and participant. It speaks of the national mood.

## Highway And Bicycle Safety (Cont.)

### W Marks The Spot (Cont.)

For the last motion picture on traffic safety produced in 1944.

### Driving Machine 16mm. Sl. Sc. (22)

The main theme of the film is that careful, courteous and considerate drivers will keep out of accidents. A number of suggestions for safe driving are given and illustrated.

### Safety Features Sl. Film Strip (22)

The maintenance of brakes, steering gear, horns, lights, and windshield wiper is demonstrated. Points out that safe, careful driver is the most important safety factor of any vehicle.

### On The Skidline 15mm. Sl. Slide Film (20)

A short-reel film explaining the major causes of winter traffic accidents. Tells the driver what he can do to avoid problems during the winter months.

### Look Over Your Shoulder 8mm. Slide Film (20)

Emphasis is placed on the necessity for alert driving, good judgment, caution, and care in preventing hazardous tailgating. Some scenes are illustrated the results of bad habits.

### Traffic Jam Ahead 8mm. Slide Film (20)

Outlines a practical program for post-war traffic safety sponsored by 42 national organizations.

### Ride With Safety 16mm. Sl. (21-22-23)

How to ride bicycles with safety and avoid accidents.

Li Liang and Michele Belfer (Cont.)

Li Liang's Series 16mm. 35. (J.-S.)

The Liang film first reveals the involvement of Liang in the  
1949-50 series and depicts the history of a Soviet interest in  
favor of their years of service, the returns to that state for  
the 1949-50. Liang's film is the director.

Li Liang's Series 16mm. 35. slide film (S.)

A technical presentation of the Soviet economic problem. The  
causes of Soviet economic problems and a series of pre-  
sented for improved Soviet fighting as the best means for  
improving these problems.

Propaganda VE Series 16mm. 35. (S.)

Illustrates the Soviet responsibility of the war in order to  
present the Soviet side.

Pictures of the Soviet Union 16mm. 35. (S.)

Good lessons for all materials.

Traffic Safety 16mm. 35. (S.)

A set of four 16mm slide films illustrating the principles of  
traffic.

Triangle of Safety 16mm. 35. (S.)

Excluded. I think for traffic safety--Good lesson, good training,  
good class. Pictures good and very practical.

Confined to Streets 16mm. 35. (S.)

Exposing the propaganda used by the Soviets who are responsible for  
the situation in the Soviet Union and the need of care-  
ful inspection of any proposed car.

Highway and Motor Vehicle Safety (Cont.)

Well, That's It From This 16mm. Sp. (sp)

A message to the drivers and passengers about the new law.

The Road Is Driving 16mm. Sp. (sp)

Reveals the new law designed for Dist. Attorney to end highway accidents. Emphasis on driver driving.

The Road Is Alive 16mm. Sp. (sp)

A dramatic explanation of the purpose and operation of typical State Safety-Responsibility Law.

Automotive Mechanical Training Set-Set 1 & 2 15mm. Sl. Slide File (sp)

A complete instructional study of the mechanical principles and operation of the automobile.

If It Happens Sp. Slide File (sp)

A first-aid program, explaining and demonstrating what to do after an accident.

Setting Your City Safe Sp. Slide File (sp)

Setting up a traffic safety program in a community.

Get Going 16mm. Sp. (sp)

Explains acceleration and deceleration in automobiles in terms of inertia, with many illustrations from other types of equipment.

Power Over 16mm. Sp. (sp)

An explanation of the meaning of horsepower in relation to the auto.

Highway and Simple Safety (Cont.)

Hydraulics 16mm. 5m. (sk)

Principle of hydraulic pressure--hydraulic brakes.

Visibility on The Highway 16mm. 5m. (sk)

Illustrates visual principles which apply at night. Emphasizes six important rules for after-dark highway safety.

Learning About Turning 16mm 5m. (sk)

A lesson on the proper way to turn a car around.

On The Level 16mm 5m. (sk)

A picture that explains the working of the front wheels in traveling over rough surfaces.

Power 16mm. 5m. (sk)

Shows the workings of the pistons and moving parts of an automobile.

Power Fit in 16mm., 75m. 5m. (sk)

Story of Detroit's contribution to the (willard) history of "Public Welfare Legislation"

Lighting The Way 16mm, 5m. (sk)

An explanation of the six types of car.

Shift, Steer 16mm 5m. (sk)

An explanation of the working of the clutch and the transmission.

Shift Rods 16mm, 5m. (sk)

The workings of the clutch.

Shifting Levers 16mm 5m. (sk)

Explanation of the transmission of the automobile.

Staying And Bicycle Safety (Cont.)

Stop That Car 16mm. 30. (sa)

A brief picture on the brakes of the automobile, how they operate.

Where Mileage Begins 16mm., 75m. 30. (sa)

Animated description of what starts the power of an automobile engine work--an inside view of what makes the wheels go round.

With Care 16mm. 30. (sa)

Shows how proper driving and safety should be. Highway courtesy instructions for all drivers.

And Exposed Death 16mm. 30. (sa)

Emphasizes danger of drunken driving and speeding.

Trained To Serve 16mm. 30. Color (cl-jk)

Promotion film on need for training Patrolmen, showing how Patrolmen are trained under Patrol training camps.

A Right Fall 16mm. 30. (sa)

Safe practices in driving--as promoted by High School.

Around The Corner 16mm. 30. (sa)

An ideal explanation of the differential of a car.

Automobile Lubrication 16mm. 30. (sa)

Correct method of lubrication of car.

Current Flashes 16mm. 30. (sa)

A very brief picture of the workings of the generator, voltage regulator and battery.

Curve Control 16mm. 30. (sa)

A demonstration of how various types of wheels are used.

Airway for Vehicle Safety (Cont.)

From The Collision Trail 16mm. So. (v)

Shows the trail of a car of gasoline from the tank to the exhaust.

Fire Control 16mm. So. (v)

Shows how, principally, with adjusted timing, the control of internal combustion in the automobile engine.

How Air 16mm. So. (v)

Shows the relation of air and gasoline to the approximate amount of air needed to drive a car 1 mile.

Adventure Of Jimmy 16mm. Si. (el-jl)

Adventure of a boy as he learns the necessary elements of highway safety.

America's Safest City 16mm. Si. (el)

What Evanston, Ill., has done in making city safe for children.

Death Taken A Detour 16mm. Si. (All A-55)

A general safety film on the prevention of accidents.

Champions At The Wheel 16mm. So. (v)

It is designed to correct the faulty driving habits of the professional drivers. The most frequent causes of accidents are discussed in such a way as to make this film beneficial to all who drive.

Behind The Wheel 16mm. So. (v)

This picture, photographed from the driver's viewpoint behind the wheel, teaches the correct way to drive an automobile.

Hickory And Bicycle Safety (Don't.)

Death Never Takes A Holiday 16mm. 20. (sh)

Groesome scenes show results of careless and reckless driving.

Recreational Safety (Cont'd.)

Play Safe - Slide Film (10)

A series of slides about fire hazards and fire prevention directed at play.

Games At Home And At Play Sl. Film Slide (12-1)

Series of slides in school gymnasium, corridors, playgrounds, etc..

Swim Safe - Slide 16mm. Sl. Color (11-1)

A story of how the Chicago Police Dept. trains school children in water safety. Shows a group of children at a swimming pool, and how they learn to swim, including the rescue of a child who was drowning.

First Aid - Slide 16mm. Sl. Color (11-2)

A story of how the first aid kit was used to help a child who was hurt. Shows the child being helped and the first aid kit being used.

Swim Safe - Slide 16mm. Sl. Color (11-3)

A portrayal of the first aid kit being used to help a child who was hurt. Shows the child being helped and the first aid kit being used.

The Making of a Shooter 16mm. Sl. Color (11-4)

Designed to advance the proper handling of firearms and to help learn shooting as a safe sport. While the picture is primarily a safety film, it also presents in a most effective manner the recreational aspect of shooting - building possibilities of hunting and other forms of shooting.

Recreational Safety (Don't.)

Electric Gun 16mm. So. Color (41-11-50)

Designed to present the public and especially children, with the dangers of playing with guns. Dramatic home-interest story, featuring a young Air Force pilot on vacation and his young brother and sister and their friends.

How to Stay Safe 16mm. So. Color (11-10)

"All you should know the way of safety procedures in the outdoors should follow the rules into the woods, field, or anywhere in season of time.

Safety Story 16mm. So. Color (11-10)

Titled in dramatic style, this motion picture covers the subject of hunting safety and gives many helpful suggestions for the handling of small arms including firearms, military and police arms.

Safe, Like Me--Safety 16mm. So. Color (11-10)

Safe, Like Me--Safety tells over to the public the importance of staying safe and gives many helpful suggestions for the handling of small arms including firearms, military and police arms.

General Safety

Safety in the Shop 16mm. 30. (1-1)

Emphasizes general safety rules and shows a few accidents that are common in the shop. The film shows some of these accidents.

Safe Use of Tools 16mm. 30. (1-1)

How to use any single tool as correctly, hammer, saws, chisels, files, pliers, and other small hand tools. Shows in the correct and in the wrong...the pliers and in the hammer.

Safety in the Machine Shop Lantern Slides (10-10)

Lantern slides showing the extreme care needed in the use of machinery in the shop.

Safety with Handpower Machinery Lantern Slides (11-1-10)

A series of lantern slides showing the various machinery and its proper use in order to avoid accidents.

Safe Use of Tools 80 Slide Film (11-1-11)

An interesting story of the use of small hand tools, could serve the four rules: select the right tool be sure it's in good condition, use it properly, put it away safely.

For Safety's Sake 35mm., 16mm. 30. (11-1)

This fast-moving film demonstrates clearly how to use, correctly and care for portable power tools.

Grinding Wheel Safety 16mm. 30. Color (11-12)

Covers all of the principal causes of grinding wheel breakage and emphasizes need for proper handling.

## Industrial Safety (Gen'l.)

### Laboratory Glassware 36. Slide File (40)

Illustrates safe practices that should be followed when handling various types of glass apparatus in the laboratory.

### Common The Safe Way 16mm. Sp. (30)

Emphasizes safe practices every worker should take to protect himself and co-workers. Emphasizes the importance of proper dress, use of safety equipment, provision, and observance of safe work habits.

### Welding The Safe Way 16mm. Sp. (30)

This film covers fundamentals of safety in welding operations.

### Welders To Your Health 35. Slide File (14)

Covers both actual and simulated health hazards of welding. Tests with electric welding of common steel and non-ferrous.

### Your Eyes Are 16mm. Sl. Color (7-44)

Repeats the importance of the eye. Methods of protecting eyes in industry and preventing accidents are shown.

### Watch The Road 16mm. Sl. (42)

For use to the safety of the worker and the safety of the individual. For protection.

### Watch Yourself 16mm. Sp. (7-45)

Emphasizes the importance of safety. Shows common practices and the importance of eye protection, which convinces workers they must follow proper safety practices.

Im April 1850 (1850),

First Aid

First Aid--Life Saving and Resuscitation 16mm. 31. 31. (11-10)

Shows various approaches and holds used in rescuing the endangered swimmer. Resuscitation methods shown including artificial respiration.

First Aid--Drowning 16mm. 31. 31. (11-10)

Depicts the resuscitation of a swimmer in distress; location of the person in water; various methods in using the body lifeline, including the "hook" method; and the "hook" method of artificial respiration.

First Aid--Drowning and First Aid 16mm. 31. 31. (11-10)

Shows procedure in caring for a person who has drowned and arrived: taking the person out of the water, examination for wounds, cutting of clothing, resuscitation, artificial respiration, and splinting.

First Aid--Life 16mm. 31. 31. (11-10)

File illustrating the comprehensive training in swimming and life saving life saving as an aid for and emergency. Includes various methods of rescue, floating, and life saving as well as the use of various material and other strokes.

First Aid--Life 16mm. 31. 31. (11-10)

File illustrating the life saving. Shows various methods of first aid and first aid training. Includes various methods, artificial respiration, and types of artificial respiration and artificial respiration.

First Aid (Cont.)

First Aid--Care of Minor Wounds 16mm. Sl. (51-51-51)

Emphasize importance of immediate care for minor wounds. Show proper method of applying sterile bandage.

First Aid--Cervical Tie Applied 16mm. Sl. (51-51-51)

Show methods of making and using stretchers in car accidents and how to cover injured persons without stretchers.

First Aid--Control of Bleeding 16mm. Sl. 30. Slide Film (51-51)

Show general methods of control of bleeding and various techniques in various types of the same.

First Aid in Shipboard 16mm. Sl. (51-51-51)

Give basic information contained in standard courses for emergency in first aid. Include topics of shock, first aid to the eye, correct manner of handling accident cases, and first aid treatment for shock, treatment of bleeding.

First Aid 16mm. Sl. 30. Slide Film (51-51)

After first aid is defined, the procedures suggested by the American Red Cross in rendering first aid treatment are suggested and demonstrated.

Learn to Swim 75mm., 16mm. Sl. Sl. (51-51-51)

Demonstrate and teach swimming or confidence method, including the basic strokes and kicks. Emphasis is placed on learning the fundamentals in shallow water, then in deep water, and the necessity for practice.

First Aid (Cont.)

Lifelines 15mm., 16mm. So. Si. (51-95)

An excellent film for safety in swimming. Shows various procedures in rescue work and also a simple Froese-preserver method of artificial respiration.

Safe Swimming 16mm. So. (61-91-80)

An appeal to youngsters to swim in supervised places where there is lifeguard protection is made in the tremendous unsupervised event. Fred's information is combined with the appeal to safety.

Before The Doctor Comes 16mm. So. Si. (52-81)

Reel 1--A Chest of the arteries, and how a man's body indicates the major pressure points. Reel 2--Artificial respiration. How to care for burns. Reel 3--1st Aid. How to apply artificial respiration splints. Reel 4--Arm fractures. How to apply Murray-Jones, improvised splint. Transporting victims.

First Aid Of Minor Cuts 16mm. Si. (61-91-80)

Stating the necessity of proper treatment of even the smallest of cuts, in order to prevent infection.

Eye Infection 15mm. So. Slide Film (61-91-80)

Story features Howard and Kate Fisher, who come to a first aid aid is needed to limit all new eye disease. While having their eyes treated, he learns from the doctor what can be done in preventing eye disease and the smallest cuts or injuries.

### Slide 11 (Cont'd.)

Following the Lecture 16mm. Reel (81-58-11)

Instructing a ten year old child in the basic fundamentals of swimming. From the importance of water, to breathing, floating, and strokes and coordinated body water swimming.

Resuscitation of the Injured Slide Film (58-58)

Slide Film showing the immediate care, treatment and resuscitation of the injured, so as not to cause further injury.

Resuscitation--The Instructor 16mm. Reel (81-58-12)

Slide Film showing the instructor in resuscitating.

Artificial Respiration and Its Uses Slide Film (58-58)

An explanation of the effects of artificial respiration on the human body, and the various uses.

Resuscitation Parts 1 and 2 Slide Film (58-58)

Two slide films showing the various types of resuscitation, first aid, and resuscitation.

Fractures Slide Film (58-58)

Various types of bone fractures shown and basic immediate treatment.

Wounds Slide Film (58-58)

Single cuts, lacerations, abrasions etc. are shown and their first aid treatment.

Training I. First Aid 16mm. Reel (81-58-58)

A Boy Scout promotion film. The film shows the ability of a scout to render aid at the time of injury, due to his first aid training.

### First Aid (Con't.)

#### First Aid Treatment For Snake Bite 16mm. Bi. (91-11)

First aid treatment includes holding the patient, caring wound, applying tourniquet, using ice pack, making incisions applying suction to remove poison, loosening tourniquet, etc..

#### Poisonous Snakes Of The United States Bi. Film Strip (90-24)

Shows various types of poisonous snakes found in the U. S. Symptoms of poisonous snake bite, first-aid treatment and precautions are also presented.

#### First Aid For Gas 16mm. Bi. (91-24)

How to recognize by color and effect four main types of gas. Shows first aid treatment.

#### Temperature, Pulse and Respiration 16mm. Bi. (90-25)

Demonstrates how to take the pulse, the temperature and respiration explaining how to accomplish it satisfactorily.

#### Beats Up 16mm. Bi. Bi. (90-26)

Demonstrates ways to "beat" common criminals (and us): simple words or "force without force," tells for good ideas for Red Cross life saving courses, swimming techniques adapted to life saving, ways to approach swimming person, person, trip releases, coaches.

#### Swimming Instruction Series 16mm. Bi. (91-27-28)

A series of three films produced by the U. S. Dept. of Agriculture in cooperation with the American Red Cross for the National and the Service students of swimming.

### First Aid (Don'ts)

With some of the stimulus techniques 16- 30 (17-3-40)  
 First aid, well-known technique based on the University of  
 Illinois, with a lot of stimulus and stimulus. Stimulus  
 technique - the technique of the University of Illinois -  
 Illinois.

and about methods of stimulus 16- 30 (17-3-40)  
 First aid, 17-minute, in a 17-minute session, and not to be  
 about 17-minute & 17-minute. A group of 17-minute & 17-minute  
 constructive methods of pulling in a 17-minute session by using  
 a 17-minute, a 17-minute, a 17-minute, a 17-minute, a 17-minute. Covered and 17-  
 minute methods of pulling in a 17-minute session and a 17-minute  
 are shown; proven the 17-minute is 17-minute, 17-minute, a  
 17-minute, 17-minute, 17-minute.

### Electrostatics of Electricity 16- 30 (17-3-40)

But to help control of electricity in a 17-minute session and 17-minute  
 program.

### First Aid 16- 30 (17-3-40)

A 17-minute 17-minute 17-minute 17-minute, 17-minute, 17-minute, 17-minute  
 technique based on a group of 17-minute 17-minute 17-minute 17-minute  
 examining the 17-minute 17-minute. First of the 17-minute is devoted to  
 the following question on the kind of an 17-minute 17-minute.

### First Aid 16- 30 (17-3-40)

A 17-minute 17-minute 17-minute 17-minute 17-minute 17-minute 17-minute  
 on the 17-minute 17-minute 17-minute 17-minute 17-minute 17-minute 17-minute

### Slide 100 (cont.)

#### Slide 101 (cont.)

Slide 101 is shown briefly in Slide 102.

#### Slide 102 (cont.)

Envelope contained the photograph of the victim, as shown, bearing on the Physical Examination Report of the State College of Investigation. Several Senior Scouts at interest, approximately, with around the age of temperatures varying from 10 to 15 years, were seen to observe the photograph of the victim.

#### Slide 103 (cont.)

A photograph taken on 10/10/68, showing the victim, as shown, and the investigation, 10/10/68, showing the victim, as shown, and the investigation, 10/10/68, showing the victim, as shown.

#### Slide 104 (cont.)

Slide with the name and location of the victim, as shown, and the investigation, 10/10/68, showing the victim, as shown.

#### Slide 105 (cont.)

This is a visual training course for first aid, composed of 10 slide films with recorded lectures. Produced in cooperation with the School of Medicine and Surgery, Armed Forces Medical Institute, United States Army.

#### Slide 106 (cont.)

A physical first aid film. Shows the victim, as shown, and the investigation, 10/10/68, showing the victim, as shown.

### First Aid (Cont.)

#### First Aid To First Aid Series 16mm. Si. (J-44)

First Aid Reception, Bandaging, Control of Bleeding, Shock, and Transportation of the Injured are included.

#### Emergency First Aid 16mm. Si. Sp. Color (J-45)

A complete series for classroom or group instruction. Titles of the films are: Bleeding--First Aid--Shock; Treatment of Shock and Shock; First Aid to Fractures; First Aid to Burns; Transporting the Injured; and Roller Bandaging.

#### Emergency Treatment For Bone Fractures of the Lower Limbs 16mm. Si. (J-46)

Prostheticists demonstrate the application of the Keller-Flake and Murray-Jones splints to the lower leg and foot extremity fracture. It is pointed out that a fractured humerus requires little traction.

#### Emergency Splinting For Fractures of Lower Extremity 16mm. Si. (J-47)

Shows in detail contents and use of doctor's automobile fracture kit. A doctor and his assistants are seen at the scene of an accident and apply a Thomas splint.

#### First Aid In Transportation Of Fractures Of Leg, Shins and Arm 16mm. Si. (J-48)

Demonstrates substitute methods when Murray-Jones and Keller-Flake Splints are not available.

#### First Aid In Transportation Of Back Injuries 16mm. Si. (J-49)

A short presentation on the handling of possible back injuries.

### First Aid (Cont'd.)

#### First Aid In Transportation of Bone Injuries (Cont'd.)

Incorrect and correct techniques in dressing victims are demonstrated.

#### First Aid Bandaging 16mm. Sl. (1-sh)

After a crossing is defined, descriptions and illustrations of various kinds of dressings are shown. Various kinds of bandages are also shown. Film concludes with some "don'ts" of bandaging.

#### Prevention and Immediate Treatment of Athletic Types of Injuries 16mm. Sl. (2)

This film shows the most efficient methods of taping with adhesive, elastic adhesive bandages and with ice all-weather and lace plaster bandages. Starting with the leg, it shows both preventive measures, and methods for immediate care of athletic injuries, such as various knee conditions, foot blisters, tendon and muscle injuries, sprains, bone injuries, rib and shoulder, etc., with the fingers.

#### Taping Technique 16mm. Sl. (2)

An interesting film for the first aid course, showing how parts of body are protected by taping before participation in games or practice to prevent injuries.

#### Summer Sale 8mm. Slide Film (1-sh)

How to be safe in the summer. Contains information on insect bites, poison ivy, heat stroke, heat exhaustion, etc..

### First Aid (Cont.)

#### The Human Body In First Aid 16mm. 31. Color (24)

To apply first aid intelligently, it is necessary to know the human body, its component parts and their functions and relationships. This film will help you to learn the human anatomy, illustrating the, and other references to the body, comprehensive information.

#### First Aid--Injuries and Accidents 16mm. 31. (24)

Various types of accidents and how they are treated in the army are shown. Eye injuries, burns, frostbite, drowning, electric shock, gas, heat stroke, sunstroke, and foot ulcers.

#### First Aid--First Aid--Parts 1, 2 16mm. 31. Color (24)

Film including Shock, Arterial Bleeding, Dress Open Wounds, and Artificial Respiration, Fractures and Dislocations.

#### First Aid In Transportation Fractures 16mm. 31. (24)

Illustrates method for applying improvised splint.

#### Bleeding--Resuscitation--Shock 16mm. 31. (24)

The essential first steps to stop bleeding, how to restore breathing and consciousness. Periodic wounds, as well as such severe wounds as compound fractures, are dealt with. Path of blood vessels and pressure points to check hemorrhage. Resuscitation techniques. Treatment for shock and fainting.

#### First Aid In Fractures 16mm. 31. (24)

Beginning with the simplest emergency splinting, the use of a newspaper or magazine for a forearm splint without traction,

### Findings

In collecting the data for this study, it was found that the results all showed of film rental were most cooperative. Sixty-five letters were sent out and of these seventy-two replies were received. The percentage of replies therefore was approximately ninety-three. However, the writer feels that the percentage may have been greater, but due to post-war conditions, perhaps some organizations may have been out of business, and some no reply was forthcoming.

This belief is substantiated when one considers that Industry Film Inc. of Hollywood, Calif., Association of School Film Libraries of New York, William H. Dudley Visual Education Service of Chicago and School Films, Inc. of Hollywood, Calif. have all gone out of business.

Well and Howell of Chicago have been taken over by the United Film Files of New York while other companies that formerly handled safety films, such as Army Pictures Corp. of New York, the J. & J. Company of Kansas City, Mo., Federal Works Agency of Wash. D.C., John Hancock Life Insurance Co., of Boston, Mass., Paramount Corp., M.P.M. and U. S. Post as Labor, Wash. D. C. have all withdrawn their films from public use for one particular reason or another. Again, the Film Center of New York has been formed by the merger of Audio-File Libraries and N. Y. International Educational and Television Co.

E. S. Lewis Co., Buffalo, Museum of Science, Crested New York Safety Council and University of Michigan have safety films but will rent these films only to schools or organizations

that are within a certain limited range of files. Such sources of file supply would therefore necessarily be only of corresponding local value.

Many films that are affected by some companies have lost their use abroad. Such films are those that were produced for war activities and war safety. "Times and Activities," "Concentration at York," "Vigilance For Victory," "Estimate on In-landish Books" are merely a few of the types of films that have outlived their usefulness.

Some companies have produced safety films with the intention of advertising their products, but on the whole this does not necessarily mean that the value of the film is increased nor does it mean that it improves the benefit that can be derived from such a film.

During the course of the material in hand, it has found that some films have different classifications. For example, all films are classified as being in the field of some subject connected with safety, while others classify them as being in the field of safety films. Some times, the subject accepted the general collection which would place films in their classification.

#### Recommendations

Since the primary purpose of this paper is to provide a comprehensive list of information on the films that have been produced by the British Safety Education in the United Kingdom, it is suggested that one have a reference to the list given, but when reading should first consult all sources of the film

...the first collection. By no means, but it would be to  
 have remained in order and transportation to be, it also  
 would have been a very good example of Safety Instruction.

In conclusion, it is recommended that a study be made  
 of the results of the investigation, and that the results be  
 made available to the public in order to prevent further  
 accidents of this kind.

Dear Sir,

I am preparing an annotated bibliography of safety education films for use in the schools. This study is being conducted at Boston University under the direction of Dr. Leslie Ivers.

Your kind invaluable assistance in this study by sending to me a list of your films is appreciated. Also, indicating whether these films can be purchased, rented or borrowed; also the name group to which the film is best suited. Perhaps your latest film catalogue contains this information and if so will you kindly forward a copy.

Thanking you in advance for your assistance  
I am,

Sincerely yours,

George E. Ryan
